### **Description**

Create high-quality mentorship and sponsorship programs for women at different career levels

Provide clear structure and dedicate sufficient resources including:

- Clear targets and quality standards with a transparent division between mentoring and sponsoring
- Information provided to potential sponsors on company objectives and strategies to increase gender equality and diversity, and to develop women with diverse social identities for leadership positions
- Incentives provided for providing sponsorship, e.g., being active as a sponsor can be used as part of the individual performance management of the sponsor

### **Challenges to Implementation**

Senior managers or supervisors may be reluctant to assume a sponsorship role for female employees and may find it difficult to identify suitable candidates due to overall lack of visibility of women

Difference between mentoring and sponsorship not clearly addressed

Corporate culture and local gender norms may be unsupportive of men and women establishing a sponsor relationship

Senior managers may use time and effort to promote protégés, but are not placed well enough in the organization or hindered by company politics to effectively support the success of the person sponsored by them

### **What Success Looks Like**

Transparent company-wide sponsoring guidelines are established

Visibility of sponsored candidates increased

Increased number of women with diverse social identities are perceived as good performers and/or get promoted to next level

Sponsors use professional capital to support careers of their protégés

Corporate sponsorship programs assign top leaders and have target goals to which sponsors are held accountable

Senior managers perceive involvement as a sponsor as supporting company targets and personally enriching
